

CONNOILS

PRODUCT CATALOG

Connoils, headquartered in Wisconsin, is a manufacturer and wholesale distributor of bulk plant and animal derived oil powders, extracts, seed and berry oils, essential oils, emulsions, supplements and more. We specialize in creating unique ingredients, ingredient blends and finished products that specifically target and service the functional food and beverage, sports nutrition, pet nutrition, health and wellness, beauty and cosmetic industries.

Our innovative processing and customized product recommendations offer effective solutions allowing you to achieve your goals. For plant and animal derived, regulatory compliant ingredients and turnkey solutions, Connoils is your trusted partner.

CONNOILS HQ/PROCESSING | W230S7115 GUTHRIE SCHOOL RD. BIG BEND, WI 53103 | T: 262.662.5533 | SALES@CONNOILS.COM | WWW.CONNOILS.COM

 MADE IN USA

BULK PLANT & MARINE OILS

TURN-KEY PACKAGED OIL

Available in organic, conventional, virgin, refined, kosher, halal & non-GMO

Connoils starts with understanding your goals and the best way to achieve them. From the soil the seed is grown in to the waters the fish swim in, all are taken into account. Our processing standard is to deliver the best quality possible while minimizing the exposure to heat and oxygen - the leading cause of poor stability and a shorter shelf life.

We achieve the highest potency without stripping ingredients' valuable properties through our innovative green technology methods, including co2 - super critical extraction, distillation, cold pressing, expeller pressing, short path distillation and non-chemical refining. After processing and analysis we package these healthy oils in totes, drums, pails or consumer ready bottles and pouches.

BULK OIL POWDERS

POWDER BLENDS AND PACKAGED POWDERS

Connoils has become synonymous with turning virtually any oil into an oil powder! Everything consumers buy is either wet or dry - which is why Connoils innovates both. Our full line of custom oil powders is made using the most advanced technology available. We successfully achieve up to 90% oil loads without sacrificing powder flow.

Connoils makes custom formulation easy. You choose your oil and let us know your intended use and goals, and we find a product we already offer to match, or develop the product for you.

Our innovative technology married with the science of oils and carriers allows you to be as inventive as you want to be, creating sports ready beverages, infant formulas, pet food ingredients, and oil powders for functional food and industrial applications.

SPECIALTY INGREDIENTS

Connoils is an expert in plant and animal derived ingredients

Over the years we have seen many products fall in and out of favor for a variety of reasons. Connoils stays on top of industry trends and frequently seeks out specific raw materials to balance out our portfolio. We strive to help you with new and exciting alternatives, including, lecithin, hydrolyzed collagen, protein powders, tinctures, gummies and more.

ORAL & TOPICAL DOSAGES

Bulk softgels, topical blends, emulsions, gummies, pet treats and tinctures

Connoils understands not everyone consumes things the same way. We look at plant and animal derived ingredients and imagine what else they could be. Back in 2007 when Connoils opened our doors, nutritional bulk softgels were our starting point and we still offer them today.

As oral dosage forms evolve, we're evolving with them. Our experienced team is prepared to work with you to develop the correct ratio for your oral and topical dosage formulations. Our product list is simply a small taste of what can be done.
